

conciliation resources

Conciliation Resources works to prevent violence, promote justice and transform conflict into opportunities for development.

Our goals are to:

- **support people** working at local, national and international levels to develop effective solutions to social, economic and political problems related to violent conflicts
- **provide opportunities** for inclusive dialogue and improved relationships within communities and across conflict divides at all social and political levels
- **influence governments** and other decision makers to employ conflict transformation policies that promote alternatives to violence
- **improve peacemaking practice** and policies by promoting learning from peace processes around the world
- **challenge stereotypes** and increase public awareness of human rights, conflict and peace issues in divided societies
