Conciliation Resources

Conciliation Resources is an independent international organisation working with people in conflict to prevent violence, resolve conflicts and promote peaceful societies. We believe that building sustainable peace takes time. We provide practical support to help people affected by violent conflict achieve lasting peace. We draw on our shared experiences to improve peacebuilding policies and practice worldwide.

Conciliation Resources has been working towards the non-violent end to the conflict in east and central African region, including in Uganda, South Sudan and The Democratic Republic of Congo since 2006. We have been working in the Central African Republic (CAR) since 2010, supporting civil society and community actors in conflict resolution and peacebuilding that is just, sustainable and meets the needs of conflict-affected people. In CAR we have worked with the Interfaith Platform in setting up their Secretariat and supported community level peace work with 12 Local Peace Cells (LPCs) in Bria, Carnot, N'Dele and Bangui since 2014.

We have recently begun two new projects in CAR. One is working to promote youth participation in peacebuilding, implemented in partnership with WarChild UK and funded by UN Peacebuilding Fund. The second is an innovative consortium project implemented with the Centre for Humanitarian Dialogue and International Crisis Group and research partners, funded by DFID, as part of UK Aid Connect. The project will work with local partners and communities, to build relationships between conflict affected community and unblock sticking points, to generate learnings that could be applied to work on a larger scale.
