

Job Description: Project Manager, Colombia

Job Title: Project Manager, Colombia
Location: London, with possible travel to the region
Reporting to: Director of Programmes
Duration: Four months fixed term contract, two days per week

Conciliation Resources

Conciliation Resources is an independent international organisation working with people in conflict to prevent violence, resolve conflicts and promote peaceful societies. We believe that building sustainable peace takes time. We provide practical support to help people affected by violent conflict achieve lasting peace. We draw on our shared experiences to improve peacebuilding policies and practice worldwide.

We have been working in Colombia, supporting the country's transition to peace, since 2012. Despite persistent political polarisation, Colombia has seen significant developments, especially with implementation of the peace agreement, which was signed between the Government of Colombia and the Revolutionary Armed Forces of Colombia (FARC) in 2016, to end over 50 years of conflict. Our work in Colombia challenges convention, by enabling those who are often excluded from the official peace process to participate in the ongoing transition to peace. We specifically focus on women's empowerment and support a grassroots network of indigenous women, as well as Colombian women living in the diaspora. Alongside our partner CIASE, we are supporting a network of indigenous women to play an active role in the country's peace process. We also support Diaspora Woman, an initiative to empower Colombian women in the diaspora to become agents of change in the Colombian peace process and in their host countries.
